SPECIALIST IN GOOD CLOTHES FOR MEN AND BOYS

When you feel an interest in clothes we'd be glad to have you come here and look around. We've told you this is a different store; we are not selling the like clothes, like the general stores do. We've told you you can find here styles in fabrics and models that you won't see anywhere else. Many styles you'll find here are expressly made for us. Come and see us. This isn't just advertising talk to gain trade for us. To convince you, take one of our Suits home on approval and compare it with other Suits, and you be the judge to decide.

SUITS: \$15, \$20, \$25 AND \$30
that others ask a great deal more for.

Boy Clothes in styles and qualities and at prices which will appeal to parents. New weaves in all colors—Worsted, Cheviots, Scotch Mixtures; Single and Double Breasted two-piece Suits, Sailors, and Russians. Some with 2 pairs pants.

PRICES FROM \$3.50 TO \$12.50

GOVERNOR CRUCE FAVORS REPEAL

SAYS STATE NEEDS MORE RAILROADS AND REPEAL WILL HELP.

Oklahoma City, Ok., April 22.—Taking a position opposite to that assumed by Attorney General West and ex-Gov. Haskell, Gov. Cruce, in a signed statement issued tonight, favors adoption of the legislative substitute for Sec. 9 of Art. IX of the Constitution. He says that he approved it after being thoroughly convinced that it is in the interest of the people.

After an election had been called, and too late to prevent the expenditure of money, sudden opposition to the measure developed, the governor says, and that he adds, from quarters from whose opposition should have been manifest before the resolution was approved. The statement says:

Citizens Are Appealed To.
"As long as the demagogue is abroad in the land, as long as the professional office seeker is striving to strengthen himself with certain classes of the citizenship by appealing to their prejudice and their ignorance, as long as selfishness is to dominate men and permit them to put their personal interest above the interest of all the people, just so long will Oklahoma be retarded in its development. The time has come when the real friends of Oklahoma must assert themselves and say to the politician, to the agitator, and to the self-interested man, 'You have had your day in court; stand aside and let progress pass.'"

Matter Is Investigated.
"There are two ways," the Governor says, "to build railroads here, and either will require an amendment to the constitution. One is to permit the people to tax themselves in such venture (prohibited by the constitution,) the other being to permit properly capitalized companies to do so, and choosing between the two, he favors the latter. The governor says that he has had the matter investigated by good lawyers, and he finds the contention that the amendment will throw down the bars to the Standard Oil company, in its effort to control the gas and oil supply, is untenable from every standpoint, legally."

REFRIGERATORS EASY PAYMENTS SMITH 203-5 W. Main St.

Attorney General West a few weeks ago took the view that the substitute would work to the state's injury by enabling the Standard Oil company to get certain rights now prevented.

A New Guarantee Bill.

Sapulpa, Okla., April 24.—State Senator J. J. Jones will be the author of a new bank guarantee law that will be introduced into the next session of the state legislature, that will repeal in its entirety the present guaranty law.

Senator Jones has been in conference with Hon. J. W. McNeal and Tom Ferguson, republican member of the state election board, during the past few days, and they have agreed on a bill that will give the bank examiner more power and will authorize him to close up any bank in which he finds the slightest evidence of crookedness.

"The present bank law is not strict enough," said Senator Jones today, "and my bill will do more to insure the safety of depositors' monies than any bill ever before introduced."

BOY SEVERELY INJURED BY FALL AT GIN

Yesterday afternoon a son of O. C. Walker, who lives on West 15th street, a boy about ten years old received some severe injuries as a result of a fall from the top of the cupola of the storage house of the round bale gin to the floor. The boy was climbing after some pigeons when the accident occurred. In falling he struck some rafters and cross pieces and was badly skinned up, although it is not thought that his injuries will be serious. A pile of cotton on the floor broke the force of his fall or he might have been worse hurt than he was.

JUDGE McKEOWN RULES ON JUVENILE LAW

Oklahoma City, Ok., April 24.—That appointment of probation officers by County Commissioners is mandatory is the effect of an opinion rendered by District Judge McKeown at Wewoka, a copy of which is in the department of charities and corrections. The department brought mandamus proceedings against Seminole county commissioners after the latter construed the act authorizing probation officers to be discretionary upon them. The mandamus was granted. Duty of the probation officer is to attend the juvenile court, which is the county court, attend to truants and obnoxious boys. He is supposed to correct the boys' ways with out court proceedings if possible.

Waurika-Ryan Contest Report.

Oklahoma City, Ok., April 21.—Judge C. A. Galbraith of Ada, special referee in the Ryan-Waurika county seat contest, submitted a report upon the qualification of certain voters in Waurika and Terral precinct. Of fifty-six votes cast in Waurika, which were questioned, he found thirty-nine were qualified, thirty-seven of them voting for Waurika and two for Ryan. In Terral precinct 162 votes were cast. Testimony was taken affecting 140, and 118 were found to have been qualified and twenty-two not. Waurika received eighty of them and the remainder went for Ryan. Some time ago Judge Galbraith found that Waurika had received a majority of the votes in the election.

Opinion on Tie Vote.

Medford, Ok., April 22.—County Attorney Breeden has received an opinion from Attorney General West relative to the status of the election regarding the tie vote between W. P. Brewster and J. C. Jones, candidate. The Attorney General holds that there was no election in this case, and this will leave Mayor Cline to hold over.

MRS. D. A. HERRING PASSES AWAY

At 11:10 Saturday night Mrs. Hattie L. Dennis Herring, wife of D. A. Herring passed away. She had been ill for several months and her death had been expected for some weeks past, but when it occurred it came as a shock to the many friends of this estimable family. This morning services were held by Rev. C. Stubbfield at the Commercial hotel, where the body lay, and after a last farewell had been taken by the husband and son and large number of friends who had assembled, the remains were started on their way to Linesville, Penn., the early home of deceased. Accompanying them were Mr. D. A. Herring, the husband, and Reed Herring, the son of the departed.

Mrs. Herring was fifty-five years of age. She and Mr. Herring were married forty years ago. She was the mother of three sons, one living in Texas, another in Ohio and Reed has made his home with his parents. Deceased was a consistent member of the Methodist church of which she

came a member in her early girlhood.

For the past three years the Herrings have been residents of Ada. They have made many friends here and this morning a number of them brought beautiful floral offerings and laid them on the casket of the departed one.

L. McNair Returns.

L. McNair, the popular Frisco agent returned this morning from his few days off duty, during which time he attended the Knights Templars' meeting at Chickasha and the banquet at St. Louis given in honor of C. R. Gray, retiring vice-president of the road. At Chickasha he was honored by being elected grand commander of the Indian Territory jurisdiction, recognition to which he was entitled by his faithful service to the order, and an honor on which the News extends congratulations. That is to say, the Knights are to be congratulated on their selection.

Mr. McNair reports a fine time at the St. Louis banquet. It was a most affecting parting of men who had for a quarter of a century shared in the trials and tribulations of building up a great railroad system.

CLEAN UP.

The Retail Merchants Association
has set Friday, April 28, as the time
for a general clean up, each mem-
ber of the organization being pledged
to have his premises cleaned on or
before that time, and all others are
urged to follow the example. Owing
to the fact that there has been so
little rain during the past year there
has been a large accumulation of tin
cans and filth of all kinds and there
was never a time when a cleaning
up of the city was as badly needed
as it is now. Many are taking the
situation easy on the plea that it
will do no good for them to clean up
their premises when their neighbors
are indifferent and refuse to do like-
wise, but if the work once begins we
believe it will be taken up by others
and the town put into a sani-
tary condition. It costs far less to
have the rubbish hauled away than
doctor bills will amount to later in
the season if it is allowed to remain
as a refuge for disease breeding ver-
min and germs.

A GREAT SURPRISE

It is to the man who has his first
suit of business clothing, cutaway
or frock coat made at Pitt's, to see
what a difference it makes in his ap-
pearance. The ordinary man finds
that the tailor makes him here and
gives him that "style" so sought for
by the swell clubman or man of the
world when we give him the stamp
of our artistic tailoring.

A SUGGESTION FOR BETTER STREETS.

Most of the male citizens of Ada
are subject to a street tax of \$4 per
year and collection time is at hand.
In order that every man may get the
worth of his money in his own local-
ity, the News suggests that each
street club together on its payment
and insist that it be expended on
improving that street. This has been
in some instances heretofore and is
about the best way we know of to
get results. The writer is particu-
larly interested just now in East 9th
street. It needs work badly and we
will gladly come across with our \$4
any time if there is any assurance
that the street will be improved.

Arch McGill of the Wapanucka
Press voices the sentiment of thou-
sands of Oklahomans on the east
side when he says: "If Senator Owen
would devote more of his time to-
wards the securing of a settlement
of Indian affairs instead of travel-
ing over the country praising the
beauties of the recall provision in
Arizona's constitution he would great-
ly endear himself to a patient but
long suffering constituency."

Thirty states have ratified the pro-
posed amendment to the United
States constitution authorizing the
levying of an income tax. Only five
more are needed to put it into effect,
and it seems highly probable that this
number will be obtained. Naturally
the plutocrats of the East do not
relish having to go down into their
pockets for their share of the funds
necessary to keep up the government
and a bitter fight may yet be pulled
off. It is estimated that something
in the neighborhood of \$100,000,000
would be realized by the passage of
a reasonable income tax law.

CONDEMNED CRIMINALS MAY CHOOSE MANNER OF DEATH

Socrates, in 399 B. C., drank the
hemlock, and his act has since stood
forth as something quite heroic. And
there have been other notable exam-
ples of self-destruction; but it re-
mained for Nevada to give murderers
the choice of being legally killed or
killing themselves. The new criminal
code of the state contains this
section:

"Section 431—The punishment of
death shall be inflicted by hanging
the defendant by the neck until he
is dead, or by shooting him, or by
allowing him to voluntarily take a
sufficient quantity of hydrocyanic
acid to produce death. The judge at
the time of pronouncing sentence upon
the defendant shall allow the de-
fendant to designate which of the
methods of death provided for herein
shall be administered in execution of
his sentence, and notice of such de-
signation shall be given to the ward-
en of the state prison. If the de-
fendant shall elect to voluntarily
take hydrocyanic acid, then he shall
be provided by the physician, by or-
der of the warden and in his presence
with a sufficient quantity of such acid
to cause instant death."

A Step Backward.

This code of the state of Nevada
with its ghastly choice of acid and
lead and hempen cord seems to step
backward of 2,000 years, says an ar-
ticle in the Chicago Tribune. But for
all that it appears to be in line with
present day sentiment toward the
death penalty. In older times the gal-
lows was a place of public amuse-
ment. Men hung on Tyburn trees,
dangling in their chains. But hang-
ings have almost ceased to be a pub-
lic spectacle. There has been a re-
vulsion. Many contend that crime is
not prevented by hangings, that the
public is merely brutalized. States
and nations have done away with it.
The death scene has been robbed of
much of its spectacularism. And with
the hydrocyanic acid of the Nevada
code, there need be not even the
noise of scaffold building; four men
together in a little room, a tiny cup
and then—

This code marks the first thought
in modern American justice for the
feeling of the dying man. Tons of
argument have been printed on the
death penalty pro and con, but it
has all considered only the effect upon
the public and the prevention of
crime. This is the first time the mur-
derer himself has been allowed a
choice, that he may name the death
which seems to him least horrible.
When sentence is passed in Nevada
the murderer shall name the man-
ner of his death. He may be hanged
or he may be shot, or, if he pre-
fers to end the ghastly business by
his own hand, he may place in the
tip of his tongue a single drop of
hydrocyanic acid and upon the in-
stant fall dead. He may commit sui-
cide by poison under the law, the
officers of the state standing by.
The prison warden, shall warn him
just what will follow, and shall cer-
tainly hand him the poison cup upon which
he shall read, printed, this authority
the state confers for his self-de-
struction:

"There is contained herein a suffi-
cient quantity of hydrocyanic acid to

How to Establish Consolidated School Districts.

1. Interest from two to four dis-
tricts in the move by calling meet-
ings at the school house in each dis-
trict and have two or three persons
discuss the advantages of consoli-
dated districts and graded schools.
If possible have the County Super-
intendent, the State Superintendent
or the Assistant superintendent pres-
ent.
2. Have the clerk or some other
member of the board of district trust-
ees in each district to post notices
in five public places calling for a
special meeting at each school house
to vote on the question of consolida-
ting. Ten days' notice must be given
not including the days of posting and
the day for holding the election.
3. If a majority of those voting
vote in favor of consolidation the
question is legally carried.
4. After the election the clerk of
each district should make a written
report to the county superintendent,
who should designate a time and
place for holding an election for dis-
trict officers. When three or more
districts consolidate not more than
one member shall be chosen from
any one of the former districts.
5. Notices of the special election
for district officers shall be posted
in at least three public places in
each of the districts disorganized,
not less than ten days prior to the
election.
6. The district officers elected
should be as follows: A director to
serve until the third annual meet-
ing thereafter; a clerk, to serve until
the second annual meeting, and a
treasurer to serve until the first an-
nual meeting.
7. In all matters relating to con-
solidated school districts so far as
building school houses, issuing bond
and the like, the law relating to or-
dinary school districts will be in
force in so far as it will apply.
8. The transportation of pupils is
only to be provided when they live
more than a mile and a half on an
air line from the building. Trans-
portation is now optional with the
people of the consolidated district.

Finances of Oklahoma.

Oklahoma City, Ok., April 24.—Ok-
lahoma's total warrant and bonded
indebtedness up to April 20, as shown
by figures in the State Treasurer's
office, amounts to \$4,937,784, of which
\$3,072,784 is in outstanding warrants.
The department has called up to
March 15 warrants numbered to 16-
700, but a number amounting to \$108-
973.38 have not been presented for
payment. Interest at 6 per cent has
ceased on such warrants.

The state's bonded indebtedness is
\$1,168,000, to which must be added
\$697,000 covering public building
bonds and obligations. The school
lands, against which a portion of the
bonded indebtedness applies, yielded
in interest on deferred payments of
purchasers and rentals to \$257,784.8-
last year, while the public building
lands themselves are appraised to be
worth \$4,317,801, showing that class
of the state's indebtedness may easily
be taken care of.

To offset the \$3,000,000 and over in
warrants outstanding, there is due
the state nearly \$600,000, a little over
half the amount being back taxes
from counties, and were the tax suits
of corporations now pending against
the state, determined favorably by
the state, it would have more than
enough cash to balance books.

As it is, however, there are war-
rants amounting to \$2,510,784.32
which have to be met, and it is un-
derstood that the State board of
Equalization, now in session, is con-
sidering the advisability of making
the tax levy sufficient to pull the
state "out of the hole." Some figure
this would mean an extra one mill
assessment. The state has on hand
nearly one million in cash, the dis-
bursement of which, however, has
already been provided for in running
expenses of the government.

STOMACH NEEDS CARE

INDIGESTION NEVER TO BE
TREATED LIGHTLY.

Proper Diet and Right Time for Meals
Are Important—Expert Opinion
Given Here is Very
Valuable.

How often this is a result of nerv-
ous strain is perhaps seldom realized!
A business man eats his lunch and
other meals in a hurry with his mind
on business. His energies are being
consumed by his brain and very little
is left to be used in the digestion of
his food.

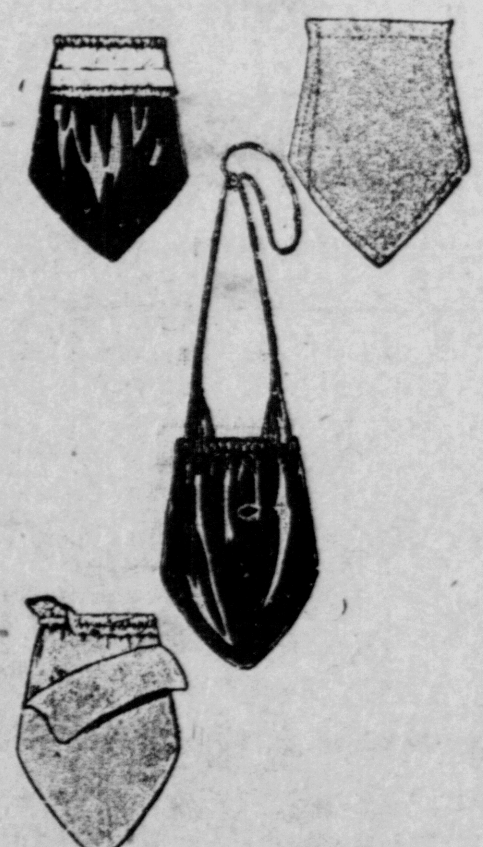

One should never eat when tired
and nervous. Take a few moments'
absolute rest before meals. If possi-
ble lie down and relax all muscles for
a few minutes. Then eat your meal
slowly and if possible have some
pleasant companion who will talk with
you on subjects not connected with
your business cares. You will be sur-
prised to note the improvement in
your digestion.

For the noon meal, office workers
should eat only light and easily di-
gested food. Eat your heaviest meal
after the work for the day is finished
and the blood which has been required
by the brain can be spared to the
stomach. People doing manual labor
that requires physical strength need
and can digest a heavy noon-day meal,
but the requirements of brain work-
ers are quite different.

Indigestion and constipation often
are bosom friends. A regular daily
action of the bowels is necessary to
health. Constipation often may be
relieved by drinking a glass of cold
water upon rising, at intervals during
the day and upon retiring. Fruit at
breakfast or figs taken after meals
often will relieve a tendency to con-
stipation. Regularity in going to the
toilet is one of the most important
measures in treating constipation.
Choose a convenient time, preferably
right after breakfast, and always go
at the same time. At first you will
not have the desire, but the bowels
soon will form the habit. Laxatives
or cathartics should not be taken ex-
cept for an occasional dose or during
illness upon the advice of a physi-
cian. So common is the practise of
taking daily laxatives that it has be-
come a "national curse." People do
not realize that they are slaves to
this habit, so continue taking their
daily doses of "teas" or "waters." Massage of the abdomen is usually
very beneficial in treating constipa-
tion. It acts by stimulating the mus-
cles and should be given at set times
during the day, preferably before the
regular time of going to the toilet.
The various vibrators act in a simi-
lar manner. Enema or injections of
warm water may be taken occasion-
ally and then are beneficial. If long
continued they are very injurious, by
reason of their irritating effect upon
the mucous membrane lining the in-
testines. At times, when the stomach
and intestines have been overloaded
with irritating material, an enema is
one of the quickest measures for re-
lief. In obstinate constipation two or
three ounces of warm olive oil inject-
ed, slowly, into the rectum at night
and allowed to remain until morning,
will soften the waste material so it
can be easily evacuated in the morn-
ing.

The Spring Hat.

The spring hats have arrived and
they differ from the hats of the pres-
ent season in that they are worn at
such an angle that a fringe of hair is
shown about the cheeks and temples,
softening the outline of the features.
This feature is settled. The hats will
be worn off the face. Even where
there is a modification of the mush-
room shape in the crown, the brim is
turned back or is tilted off the face.
Another point is settled and that is
that the shapes will be large. The
large hat is more youthful and for that
reason popular with women. Even
when the new straw is a turban it is a
broad, large turban.

baking

Lay aside your favorite baking powder for just once. Forget for a day that it is "the kind mother used." Dispense with the idea that there is "nothing else just as good." It may have served you admirably for years. But just remember, other things have improved since grandmother's time. So why not baking powder? Get from your grocer today a can of Calumet Baking Powder. Bake a batch of biscuits, a cake or your favorite pastry. If the baking does not come out just as good, or better, than usual. If it is not as light, sweet and delicious. If it does not prove up to your high standard in every respect, providing of course you have in every other way exercised your usual methods, take the can of Calumet back to the grocer and get your money. This is our first step in making friends for Calumet. The continued good results, the purity, the economy in both cost and use will hold them.

TEXT OF RAIL ROAD AMENDMENT

The substitute to be voted upon next Tuesday was enacted by the Third legislature, and reads as follows:

"Sec. 9. Any foreign or domestic railroad, transportation or transmission company may lease, sell or otherwise dispose of its property and franchise to, or may lease, buy or otherwise acquire and operate the property and franchise of any like company wholly within or operating out of the state, and may exercise the right and power of eminent domain under the laws of this state or as may hereinafter be provided by law; provided, that the provisions of this section shall not be construed to affect the power of the corporation commission to regulate and control the business of all corporations in the state, or to affect the provisions of Sec. 36 of Art. IX., or of Art. XXII, of the Constitution of this state.

FRISCO EMPLOYEES BANQUET VICE PRESIDENT GRAY

St. Louis, Mo., April 24.—Five hundred delegated employees represented the 23,000 employees of the Frisco system in tendering a good-by dinner to Carl R. Gray, who is retiring as the Frisco's senior vice president to the Pacific Coast, at the Mercantile Club Saturday night. The good-by dinner was a climax to three testimonial banquets given to Mr. Gray service of the Frisco met with new-tures showed him "Asleep at the comers, and the gathering was repre-

sentative of men whose brains, skill and muscle operate the railroad.

The banquet and the speeches which followed were made an impressive ovation to Mr. Gray, and enough of the lighter vein was added to give a bright touch to the sentiment which sprang of breaking ties with a well-beloved chief, W. C. Nixon, vice president of the Frisco, was toastmaster, and the presentation of a strikingly beautiful testimonial was made by President B. L. Winchell.

Employs Sign Autographs.

The testimonial is a bound volume of resolutions autographed by each of the 500 delegates. The volume is bound in pure silver with gold mountings on a black seal body. The front cover has a laurel wreath inclosing the name and date in solid gold. The back cover bears the Frisco emblem in fine gold and enamel with a design of grapes and leaves. The text is richly illuminated and enclosed in a high style of the art. A green oozle leather case, with monogram, incloses the volume, which cost \$1200. It was designed and made by the Mermol, Jaccard & King Jewelry company.

Events in Mr. Gray's life were cartooned in stereopticon pictures, and a speech to accompany each cartoon was made by some officer or employee of the road.

The first cartoon depicted him at the age of 2, with a toy locomotive in his hand. Alexander Hilton spoke to this one. "His First Job, Assistant Helper at Fayetteville, Ark." was the Pacific Coast, at the Mercantile Club Saturday night. The good-by dinner was a climax to three testimonial banquets given to Mr. Gray service of the Frisco met with new-tures showed him "Asleep at the comers, and the gathering was repre-

tendent, and lastly "At the Top of the Ladder." The speakers on the different subjects included J. A. Middleton, J. M. Egan, A. O'Hara, John Gillies, John H. Lucas, A. D. Lightner, W. T. Tyler, W. S. Blennerhassett and F. H. Wood.

Two songs written for the occasion were sung by a quartet of employees.

Court at Wewoka.

Wewoka, Okla., April 24.—Owing to a wreck on the Frisco early Monday morning Judge Tom D. McKeown was unavoidably delayed in reaching the city, and was forced to make part of the trip overland in order to reach Wewoka. Arriving at 11 o'clock court was at once convened and the setting of the criminal docket promptly begun.

Bonds were forfeited and bench warrants issued in the following cases: John Spencer, larceny; Dennis Carolina, forgery; Jack King, perjury; Frank Hensley, larceny; C. H. Alston, larceny; Edmond Dindy larceny.

Israel Davis plead guilty to a charge of larceny and was given one year in the pen.

Thompson and Chubba Davis charged jointly with murder, were arraigned, and after securing a jury. Thompson plead guilty and was given five years in the pen, and the jury accepted in the case of Chubba Davis, which went to trial. Jury verdict: Manslaughter in the first degree.

Judge McKeown is a hard worker, and very few nights have passed so far without an evening session. His conduct has been the subject of much favorable comment both by jury and lawyers, and while he possesses that determined purpose and cool judgment necessary in a man who occupies such a responsible position both to the state and society, he is very considerate of condition under which men labor, and never loses an opportunity to make conditions as pleasant for jurors and litigants as the situation will warrant.

May Reduce Letter Postage.

Washington, April 24.—Penny postage is now in sight. There is no longer a real deficit in the postoffice department. The difference between receipts and expenditures for the last six months is only \$40,836 on the wrong side of the ledger.

This administration inherited from that of President Roosevelt a postal deficit of \$17,500,000. While this carrying has been going on the postal facilities have been extended, and has been accomplished by curtailing service, according to the department.

In this administration 3,089 new offices have been established, 142 new titles have had delivery by carriers and 2,124 m.w. rural free delivery routes have been set going. There has been an increase in employees of 3,274 men, and the expenditure for salaries increased by \$11,708,071 in two years.

The average pay for clerks has been increased from \$978 to \$1,051. Rural carriers are to receive largely increased compensation during the coming year. They are now getting

an average salary of \$871, as against \$863 two years ago.

The average yearly salary of railway postal clerks has been increased in the two years from \$1,171 to \$1,185.

MAN WANTED HERE ARRESTED AT DUNCAN

This afternoon Deputy Sheriff R. E. Duncan left for Duncan to bring back to Ada one D. R. Burns, charged with non support of his family. It is alleged that about a year ago he left Ada in company with a woman and that nothing was heard from him until a few days ago, when he returned to his wife. A reconciliation followed, but lasted no longer than he could secure possession of their four-year-old child. The sheriff's office soon located him in Stephens county where he was arrested and placed in jail to await the coming of an officer from Pontotoc county.

Status of Mexican Troubles.

Associated Press dispatches indicate that the prospects for peace in Mexico are growing rapidly brighter. A five day armistice has been signed by the rival commanders near Juarez, during which time terms of peace will be considered. Gen. Reyes, a man of much influence among the insurgents, has been recalled from Europe and is expected to accomplish much in bringing the warring factions together.

This evening Rev. A. J. Neufeld of Coalgate will deliver a chart lecture at the Nazarene church on the second coming of Christ. Admission free. Everybody invited to attend.

HASKELL REPLIES TO CRUCE'S STATEMENT

Muskogee, Okla., April 23.—I regret that those who have advocated the adoption of section 9, amendment at Tuesday's election, have not presented their argument for answer. I am sure that both Governor Cruce and Mr. Callahan, both of whom I know to be big minded gentlemen, will not object to their friends differing from them on public questions.

Mr. Callahan's statement that I favored the Henry Ash amendment is a mistake. He will only need to refresh his own memory to recall that the amendment considered at the meeting he mentions was a competing amendment prepared by the corporation commission, and which both the commission and myself favored.

While I have the highest regard for Governor Cruce and do not question his honesty of purpose, yet Oklahoma has made marvelous growth and has built as much railroad as any state, except Texas, during the last three years. We cannot afford to turn Oklahoma over to the corporations simply to make them more prosperous. The producers of Oklahoma had far better earn \$2 and keep it for their own benefit than to create \$4 and have the corporations get it all.

If a man is a demagogue or a politician simply because he is in favor of the people reserving control of the state in their own hands, then I am both a demagogue and a politician. It is said that railroad builders will be greatly benefited by the adoption of this amendment, and then again, it is said, that I, a railroad builder, am consulting my selfish interests in opposing this amendment. How can that be? It is said that the courts will construe the amendment the way the people intend it to be. If Governor Cruce himself was endowed with power to place judicial construction of law and constitutions, I would feel perfectly certain that the public interests would be protected, but courts in many instances have demonstrated an entirely different policy and have bent the laws and the constitution almost to the breaking point in their efforts to extend the power of the corporations and limit the power of the people.

I do not agree with the idea that this amendment applies only to railroad companies. See the language of the amendment. "Any foreign or domestic railroad, transportation or transmission company." It is absolutely idle to say this is limited to railroads. It includes railroads, cat hae, telegraph, telephone, pipe line in short, every public service utility that handles freight, passengers messages, or anything for transportation of transmission. Another question: "And may exercise the right of eminent domain under the laws of this state, or as may hereafter be provided by law." Mark that now "Hereafter provided by law." If that don't take the bridge off of the legislature and permit the corporations to profit by stocking the legislature with their own friends and defeating the friends of the people by corrupt methods in elections, then I don't know plain English when I see it.
